

Laundry Fresh

Liquid Laundry Detergent

Product Number 4168

Description

This product utilized the latest ingredients that are less hazardous to the environment without sacrificing performance. A highly concentrated detergent for use in automatic injection systems. A mild blend of surfactants designed to yield cleaner and brighter linens. Contains no harsh ingredients and can be used without a sour stage. Suspends soils for easy rinsing. Can be used in conjunction with a liquid break solution. For institutional and industrial use.

Directions

Sort laundry by fabric type and soil load. Presoak and/or prespot if necessary. Load wash machine with linens. Do not overload. Dispense product directly from shipping container into the wash cycle. Average usage is 2-6 ounces per 50 pounds of linen.

Consult your service technician for exact usage addressing your water conditions and soil type.
