

Premier

Special Rinse Additive for High Solids Water

Product Number 4585

Description

A concentrated, liquid drying agent designed for hot temperature dishwashing in hard water areas and in high total dissolved solids (TDS) conditions. Helps to minimize the effects from poor water conditions and reduces film build-up on internal surfaces of dish machine. Allows water to sheet from kitchenware without causing spots or streaks. Speeds drying time.

Directions

For automatic injection, dispense directly from shipping container. Average amount used is 1 ml. per gallon of rinse water. Recommended temperature range is 180-190°F.

Technical Data

Color	Clear, Blue	pH (1% solution)	3.3-3.5
Scent.....	N/A	Viscosity.....	Medium
Biodegradable.....	Yes	Density.....	8.65 pounds/gallon

DOT Shipping Name: Compound, Cleaning, Liquid

WARNING

HAZARDS: Causes serious eye irritation. **PRECAUTIONS:** Wash hands thoroughly after handling. Wear eye protection.

RESPONSE/FIRST AID: Have the product container or label with you when calling poison control center or physician. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison control center or physician for treatment advice. If eye irritation persists, get medical advice/attention. **IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting. Call a POISON CENTER or physician for treatment advice. **IF ON SKIN (or hair):** Remove immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. **IF INHALED:** Remove victim to fresh air and keep at rest in a position comfortable for breathing.

STORAGE & DISPOSAL: No GHS phrases apply. Dispose of contents/container in accordance with all local, regional, national and international regulations.
